

ISOLFON Pad

Anti-Noise Pad

ISOLFON - Pad : Anti- noise, anti-vibration pad from compressed, recycled rubber particles.

ISOLFON - Pad

ISOLFON-Pad is produced with a combination of recycled elastomeric compounds, coming from the recycling of end of life tyre rubbers (ELT), bonded with polyurethane glue.

It can be applied to a wide temperature range and it also has remarkable mechanical resistance to impact, compression, friction etc. It is resistant to common chemical environments, moisture and oils for external and internal use.

Dimensions: 100 X 100 mm

Thickness: 10 mm

PACKAGE: Available in package of 4 pcs

Due to its easy application ISOLFON-Pad is an ideal selection for domestic use, as it can absorb the vibrations and protect the floor from scratches, or other damages from furniture's movements etc.

ISOLFON-Pad does not soil the surfaces. It is not toxic and is resistant in moisture.

It can be placed on any kind of floor such as wood, tiles, parquet, laminate, etc

APPLICATIONS

It can be placed as a mount on:

- domestic appliances, which create vibration such as washing machines, generators, air conditioners, booster pump assembly, mixers etc.
- wooden or metal furnitures
- gas bottles

Indicative Applications

Our company applies the Quality Management System ISO 9001.2008 & Environmental Management System ISO 14001.2004
